Michael Anderson

TECHNOLOGY LEADERSHIP AND STRATEGIC SUPPLIER RELATIONSHIPS

County Durham, UK | m.anderson90@icloud.com
linkedin.com/in/michaelanderson90

I lead technology teams and manage supplier relationships, with experience across financial services, professional football, retail and hospitality. My work covers application governance, service improvement, commercial management and technology adoption. I enjoy developing people, understanding how departments work and finding practical ways to improve their services.

Areas of experience

People leadership · Strategic supplier relationships · Enterprise applications · Digital transformation · IT service management · Governance · Budget oversight · Contract reviews · Change delivery · AI adoption

Professional experience

Strategic Supplier Relationship Manager

Newcastle Building Society Group | June 2026 - present

Manage technology and data supplier relationships, working with colleagues on performance, contractual commitments, governance and service improvement.

- Lead and develop colleagues responsible for supplier relationships and related activities.
- Coordinate supplier reviews and support discussions about performance, risk, contracts and improvement opportunities.
- Support supplier assurance and the organisation of evidence for reviews.
- Led work on AI governance and contribute to technology planning with colleagues across relevant functions.
- Work with stakeholders on expenditure monitoring, forecasting, contract renewals and supplier capabilities.

Enterprise Technology & Digital Solutions Manager

Newcastle United Football Club | May 2023 - May 2026

Established and led the applications and digital function, with responsibilities spanning enterprise applications, team development, supplier management, digital delivery and financial oversight.

- Recruited and developed colleagues, established working practices and supported relationships with departments across the organisation.
- Led application governance, identity and access delivery, an IT knowledge base and self-service chatbot, and Microsoft 365 Copilot adoption.
- Reduced recurring technology costs through supplier consolidation, licence reviews and changes to selected services.
- Worked with Finance on budgets and investment priorities, and with departmental leaders on technology needs and service improvements.

American Golf

Technology & Systems Manager

Leisure & Hospitality | March 2021 - February 2023

Managed systems procurement, implementation and ongoing improvement across leisure and hospitality operations. Worked with operational teams and suppliers on customer-facing platforms, reporting and working practices.

- Led EPOS and booking-platform implementations supporting transactions, reservations and daily operations.
- Recommended and introduced digital inspections, reporting and accessible records, with subsequent adoption within retail.
- Supported new venues through configuration, onboarding, employee training and go-live coordination.
- Standardised system data and reporting to support operational decisions.
- Managed concurrent projects, supplier relationships, delivery schedules and stakeholder activity.

Regional Compliance Manager

American Golf | October 2018 - March 2021

Worked with store managers across the UK and Ireland on profit protection, operational standards and process improvement.

- Used compliance reviews and operational data to identify issues and support management decisions.
- Coached store management teams and provided practical feedback and development support.
- Worked with IT colleagues on changes to systems and operational processes.

National Learning & Development Coach

American Golf | January 2018 - October 2018

- Designed and delivered induction and coaching for Store and Assistant Managers.
- Developed learning covering sales, customer service and operations, with practical support for newly appointed managers.
- Used performance information to identify development needs and assess training.

Retail Store Manager

American Golf, Newcastle | January 2017 - January 2018

Joined as Retail Assistant Manager and progressed to Store Manager. Led the store team and managed customer service, commercial performance, stock control and daily operations.

- Coached colleagues, supported individual development and worked on consistent management practices and store standards.

Earlier career

Retail Store Manager / Assistant Manager

Maplin | January 2015 - January 2017

Progressed from Assistant Manager to Store Manager. Management responsibilities across stores in the North East, covering team development, commercial performance, customer experience and operational standards.

Furniture Sales Consultant

Steinhoff International | February 2014 - January 2015

Worked with customers on furniture purchases, building relationships and supporting sales and service.

Store Manager

Select Tech Group (Apple Premium Reseller) | 2012 - 2014

Led store operations within an Apple-focused technology environment, supporting colleagues, customer experience and commercial performance.

Retail Sales Manager

Comet | 2007 - 2012

Developed early management experience across sales teams, customer service, commercial performance and day-to-day retail operations.
